Responsive Web Design	

Work Experience

Freelance Web Developer / Grab Driver   Apr 2023 - Present

Frontend Developer   Nov 2021 - Sept 2023
Capital Platforms

- Developed functional in-house and client-side systems using HTML, CSS, Vue JS, React and JavaScript.
- Studied React for a planned project, had almost 6 months working in that project
- Usually deals data in the JSON format, can work with Axios or any other fetch libraries
- Trained on job on building REST APIs, but never had the hands on experience
- Trained in mobile first or responsive web design development approach
- Practiced Agile daily, participated in daily SPRINT meeting
- Mostly used GIT providers, Github and Gitlab
- Very meticulous and particular in UI development, work closely with UX designers and backend developers daily in development cycle
- Specialized in web application development
- Translate UI designs from Figma into functional prototypes with clean code.
- Builds reusable Vue and React Components for client systems with awesome transitions and state managements [Vuex and Props methods based on use cases]
- Adhering to industry's best practices for code and security implementation.
- Occasionally writes or debugs server-side logic in ASP.Net projects
- Occasionally writes or optimize DB side scripts in MsSQL
- Worked with .NET for simple MVCs and Web APIs
- Worked on migrating server-side rendered Java Server Pages in-house Metadata Systems web application into Single-Page web application using Vue JS framework.
- Worked with various tools namely, Vue.js, CSS3, JavaScript, Vite.js and etc

Assistant Sales Manager   Nov 2018 - Feb 2021
RHB Bank

Senior Business Development Executive   Oct 2012 - Oct 2018
Standard Chartered Bank
